# Project Description

- the description of the project can be used to limit the scope of the project for land users.
- There are two limits:
  - The description of the project in the Agreement;
  - The description of the project in the permit of the Mine. For example a change in access would require additional consultation with the impacted land users.

# Financial Compensation and Participation

Funds flow directly to Communities through the Cree Nation Government

- Minimum Payment due to presence of mine
- Participation Payment based on profitability or revenues of the mine

## Indohoun Funds

- Tallymen submit projects to improve the facilities, acquire equipment and seek alternative forms of income: i.e. outfitting.
